Summary

"Passionate about tech and driven by risk-taking, I'm a self-motivated individual keen on pushing boundaries. Embracing challenges, I thrive on problem-solving and boldly navigate uncharted tech territories. Eager for growth-oriented tasks, I aim to showcase my capabilities early in my career, leaving a mark in the dynamic world of technology."

EDUCATION

University of Gloucestershire (UK)

bachelor of science (hons) in computing
Sheduled to be Finished on 2025 - pending

Institute of Software Enigneering (IJSE)

Graduate Diploma Software Enigneering
(GDSE)
From 1st September 2021 - present

ESOFT Metro Campus

Diploma in Software Engineering (DISE)
From 15th March 2020 - 2021

Vocational Training Authority

Information and Communications
Technology – NVQ-4
From 1st January 2019 - 2020

Sri Lanka Telecom Training Centre

Information and Communication Technology
From 1st January 2018 - 2018

G.C.E Ordinary Level Examination 2017

St. Aloysius College Galle

Professional Experience

Intern Full-stack Developer   2024 - 2024
Biz Software Solutions

During my first month of training, I developed a small CRUD application. Afterward, I contributed to developing the frontend and UI/UX for a meal token issuing system, using React, Yarn, Ant Design, TypeScript, PostgreSQL, and NestJS..

Web Developer Intern   2024-2024
Sri Lanka Foreign Bureau (6 Months)

Developed web applications with React, Java, Spring Boot, and MySQL. Assisted with database management, API integration, and system optimization. Supported teams in improving systems and managing CI/CD with Git and Jenkins.

Data Entry   2020 - 2021
RDHS OFFICE - GALLE

In your six-month training period, you will be focusing on typing letters, managing and organizing data in Excel, modifying database access, developing a VB.Net application, creating presentations, and designing posters.

Freelancer Project

CLUB 24S   2024-2024
LegionCode IT Solutions

The Club24S website, built with Next.js and Tailwind CSS, offers a fast, scalable, and SEO-friendly platform for a vehicle insurance company, featuring smooth navigation, responsive design, and optimized performance.
Website -: https://www.club24s.com/

NobleHomes-Galle   2024-2024
LegionCode IT Solutions

I developed the NobleHomes Galle real estate website at LegionCode IT Solutions, integrating the admin panel, client-side, backend, and optimizing SEO. The tech stack includes Vite, Tailwind CSS, MUI components, Node.js, Express, and MongoDB.
Website -: https://www.noblehomesgalle.com/

Technical skills

Programming Languages
- Java Python C#

Scripting Languages
- JavaScript TypeScript

Frameworks & Libraries
- Hibernate JavaFX Spring Boot
- CSS Bootstrap React jQuery Ajax
- Node.js Express.js JPA Sass
- Maven Java Beans JDBC Java EE
- React Native Tailwind CSS
- Redux Next.js

Databases
- MySQL PostgreSQL
- MongoDB SQL Server

Development Tools
- Visual Studio Code IntelliJ IDEA
- Visual Studio Android Studio
- Postman Docker Git

Tech Stack
- HTML, CSS3 JSON API GraphQL
- WebSockets RESTful Services

Architectural Patterns
- Layered Architecture
- Model-View-Controller (MVC)
- Client-Server Architecture
- Microservices Architecture

Cloud Technologies
- Amazon Web Services (AWS)
- Docker Kubernetes

UI / UX and 3D Modeling
- Blender
- Figma Adobe XD
- Photoshop Lightroom

CERTIFICATIONS

- FullStack Development – University of Moratuwa
- Completed FullStack Development program.
- SoloLearn
- Gained skills and certificates focused on coding and programming.
- Great Learning
- Completed diverse technology courses.
- E-Learning Platforms
- Explored Coursera, edX, GrassHopper, Alison, LinkedIn Learning, and Pluralsight.
- JavaScript Expertise
- Excelled in JavaScript challenges on CodeChef, Montero, Codecademy, CodeCamp, and DevTown.
- HackerRank Achievements
- Earned five gold badges and six verified skills certifications.

DREAM CATCHER STUDIO   2024- 2024
LegionCode IT Solutions

Developed a full-stack photography website for Dream Catcher Studio, focusing on responsive design, user-friendly interfaces, and seamless functionality for both admin and client sides.

GREAT FROZEN   2024-2024
LegionCode IT Solutions

Developed the responsive frontend of the GreatFrozen website, ensuring intuitive UI and smooth client-admin interactions.
Website -: https://www.greatfrozen.com/

LegionCode IT Solutions   2024-2024
LegionCode IT Solutions

Developed the LegionCode IT Solutions website with React, Vite, and Tailwind CSS, integrated MailJS, and optimized for SEO and performance.
Website -: https://www.legioncodeitsolutions.com/

ZEST FURRY   2024-2024
LegionCode IT Solutions

I developed the Zest Furry Cinnamon and Spice website, focusing on the frontend with React, Vite, and Tailwind CSS, integrating MailJS, and optimizing for SEO and performance.
Website -: https://zest-furry.vercel.app/

Meal-Token Issuing System   2024-2024
Biz Software Solution

I developed the frontend and UI/UX for a Meal-Token Issuing System using React, Yarn, and Ant Design. I collaborated on backend tasks with the team, utilizing NestJS and PostgreSQL, and integrated image upload via Firebase.

RELEVANT PROJECT

Easy Car Rental System   2023-2024

Developed Easy Car Rental a web application for booking and managing car stock for a business. Technologies used: Java, Bootstrap, MySQL, JavaScript, Spring Boot, Hibernate, Apache Tomcat

D24 Hostel   2023-2023

Developed D24 Hostel, a stand-alone application for managing hostel payments, rooms, and students. Technologies used: Java, Hibernate, Apache Tomcat, MySQL

Milk Bar System   2022-2022

Developed Milk Bar System, a stand-alone application for managing payments and stock in a milk bar business. Technologies used: Java, Layered architecture, JavaFX, MySQLQL
